Mini Project

AI Impact on Job Sectors: Visualization using Power BI

STEP 1:
Loaded the Cleaned excel workbook to a Power BI desktop app.

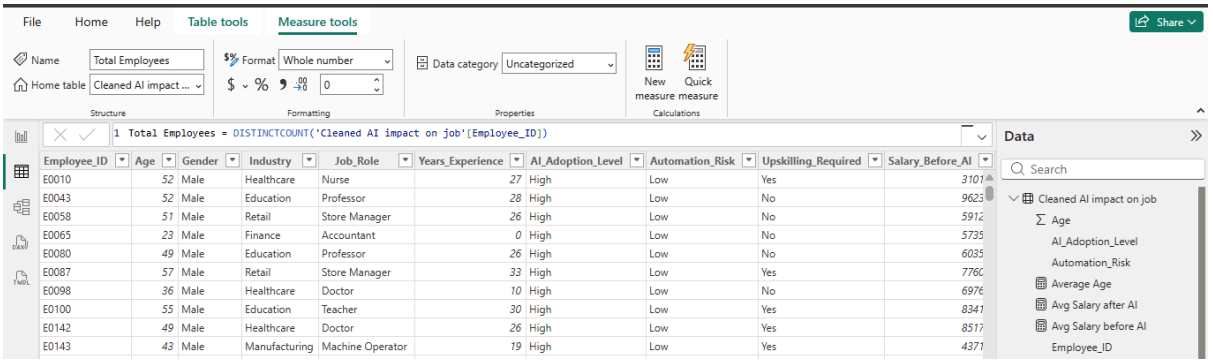

Model View:

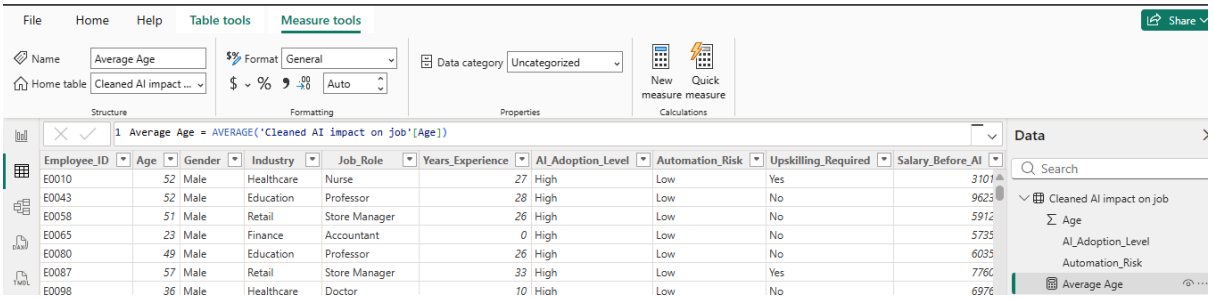

STEP 2:
Creating a few measures to display in **Dashboard 1 - AI Impact on Job Sectors, Workforce Overview**

Calculating New Measures:
Total Employees:

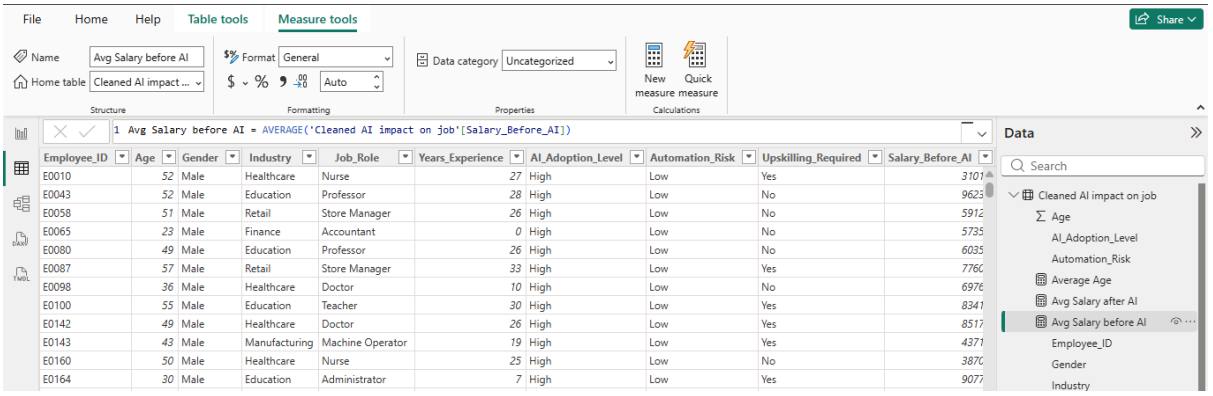

Employee_ID	Age	Gender	Industry	Job_Role	Years_Experience	AI_Adoption_Level	Automation_Risk	Upskilling_Required	Salary_Before_AI
E0010	52	Male	Healthcare	Nurse	27	High	Low	Yes	3101
E0043	52	Male	Education	Professor	28	High	Low	No	9623
E0058	51	Male	Retail	Store Manager	26	High	Low	No	5912
E0065	23	Male	Finance	Accountant	0	High	Low	No	5735
E0080	49	Male	Education	Professor	26	High	Low	No	6035
E0087	57	Male	Retail	Store Manager	33	High	Low	Yes	7760
E0098	36	Male	Healthcare	Doctor	10	High	Low	No	6976
E0100	55	Male	Education	Teacher	30	High	Low	Yes	8341
E0142	49	Male	Healthcare	Doctor	26	High	Low	Yes	8517
E0143	43	Male	Manufacturing	Machine Operator	19	High	Low	Yes	4371

Average AGE:

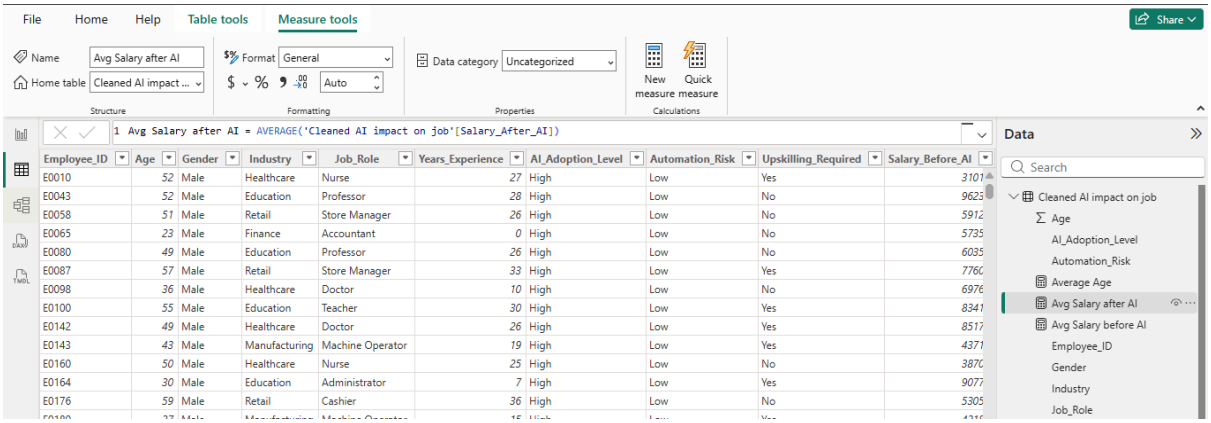

Employee_ID	Age	Gender	Industry	Job_Role	Years_Experience	AI_Adoption_Level	Automation_Risk	Upskilling_Required	Salary_Before_AI
E0010	52	Male	Healthcare	Nurse	27	High	Low	Yes	3101
E0043	52	Male	Education	Professor	28	High	Low	No	9623
E0058	51	Male	Retail	Store Manager	26	High	Low	No	5912
E0065	23	Male	Finance	Accountant	0	High	Low	No	5735
E0080	49	Male	Education	Professor	26	High	Low	No	6035
E0087	57	Male	Retail	Store Manager	33	High	Low	Yes	7760
E0098	36	Male	Healthcare	Doctor	10	High	Low	No	6976

Average Salary Before AI:

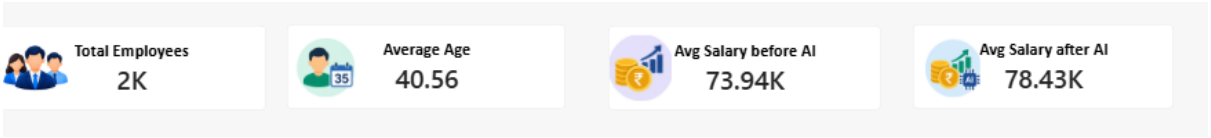

Employee_ID	Age	Gender	Industry	Job_Role	Years_Experience	AI_Adoption_Level	Automation_Risk	Upskilling_Required	Salary_Before_AI
E0010	52	Male	Healthcare	Nurse	27	High	Low	Yes	3101
E0043	52	Male	Education	Professor	28	High	Low	No	9623
E0058	51	Male	Retail	Store Manager	26	High	Low	No	5912
E0065	23	Male	Finance	Accountant	0	High	Low	No	5735
E0080	49	Male	Education	Professor	26	High	Low	No	6035
E0087	57	Male	Retail	Store Manager	33	High	Low	Yes	7760
E0098	36	Male	Healthcare	Doctor	10	High	Low	No	6976
E0100	55	Male	Education	Teacher	30	High	Low	Yes	8341
E0142	49	Male	Healthcare	Doctor	26	High	Low	Yes	8517
E0143	43	Male	Manufacturing	Machine Operator	19	High	Low	Yes	4371
E0160	50	Male	Healthcare	Nurse	25	High	Low	No	3870
E0164	30	Male	Education	Administrator	7	High	Low	Yes	9077

Average Salary after AI:

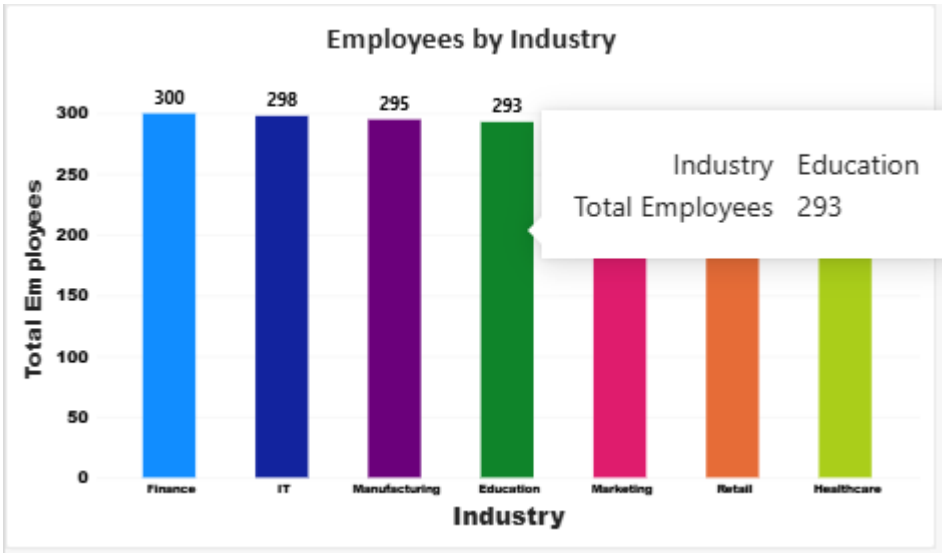

Displayed the calculated measures on a card as below

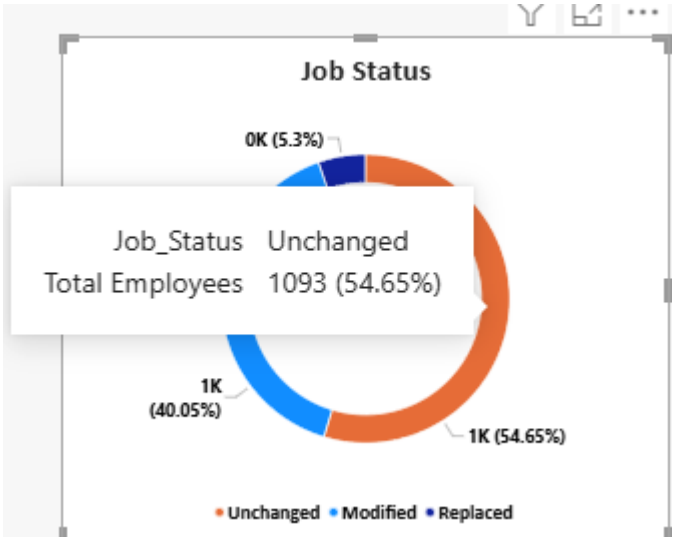

STEP 3:

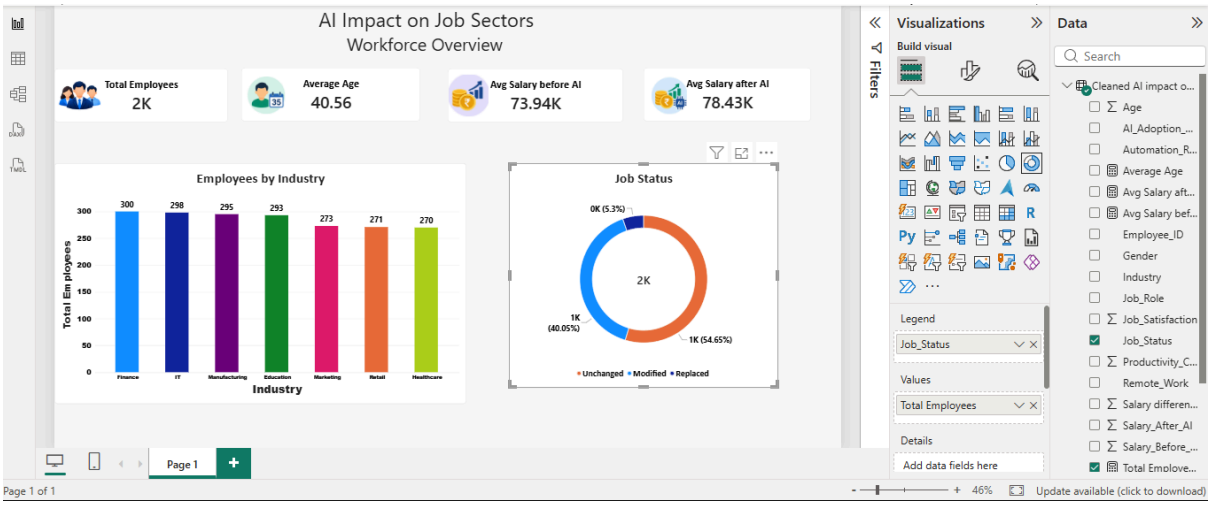

Used Column chart to display employees count based on industry

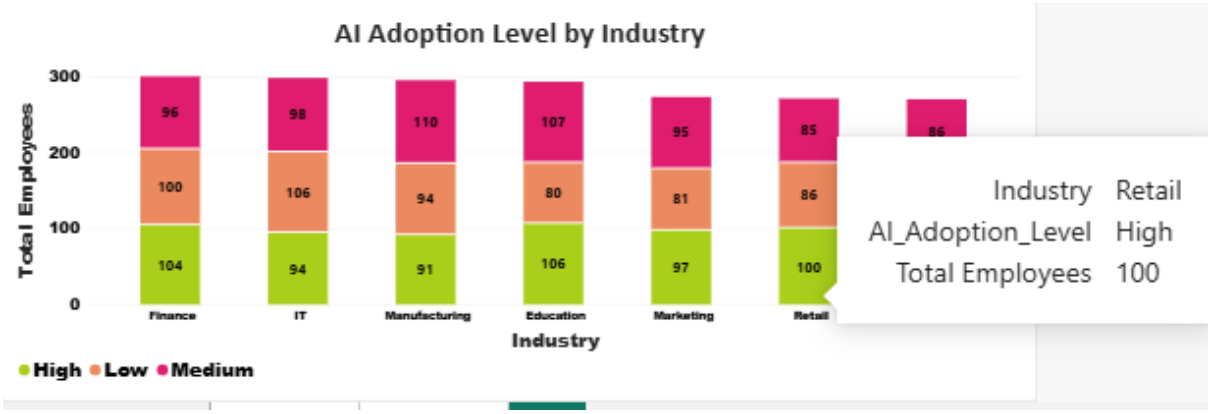

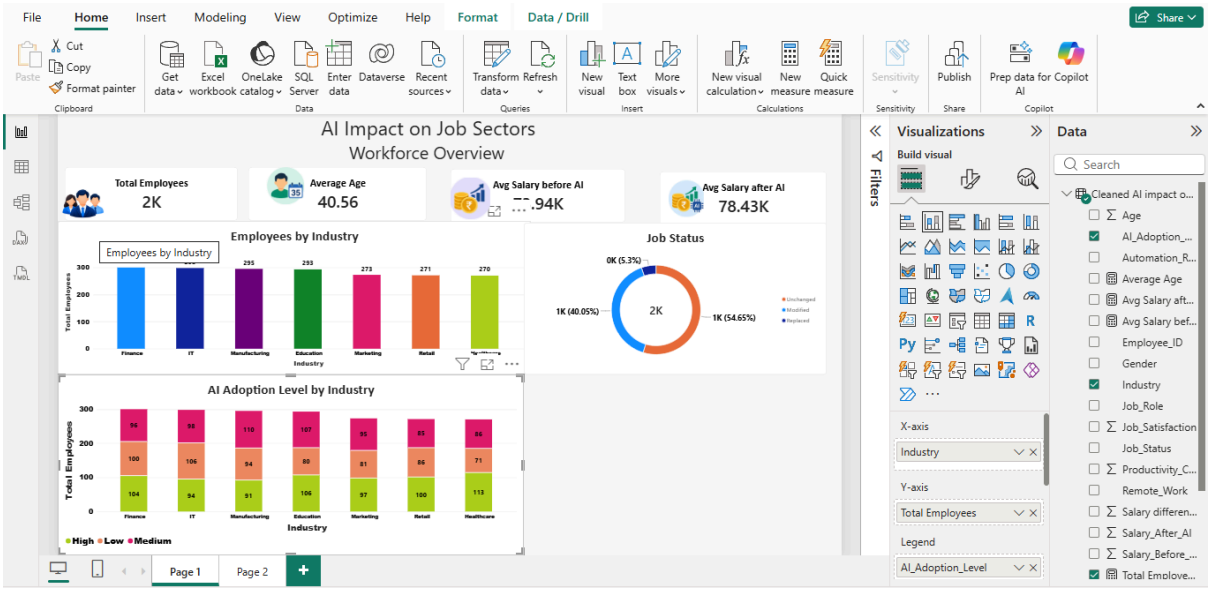

Used Donut chart to display the Job status of employees due to AI

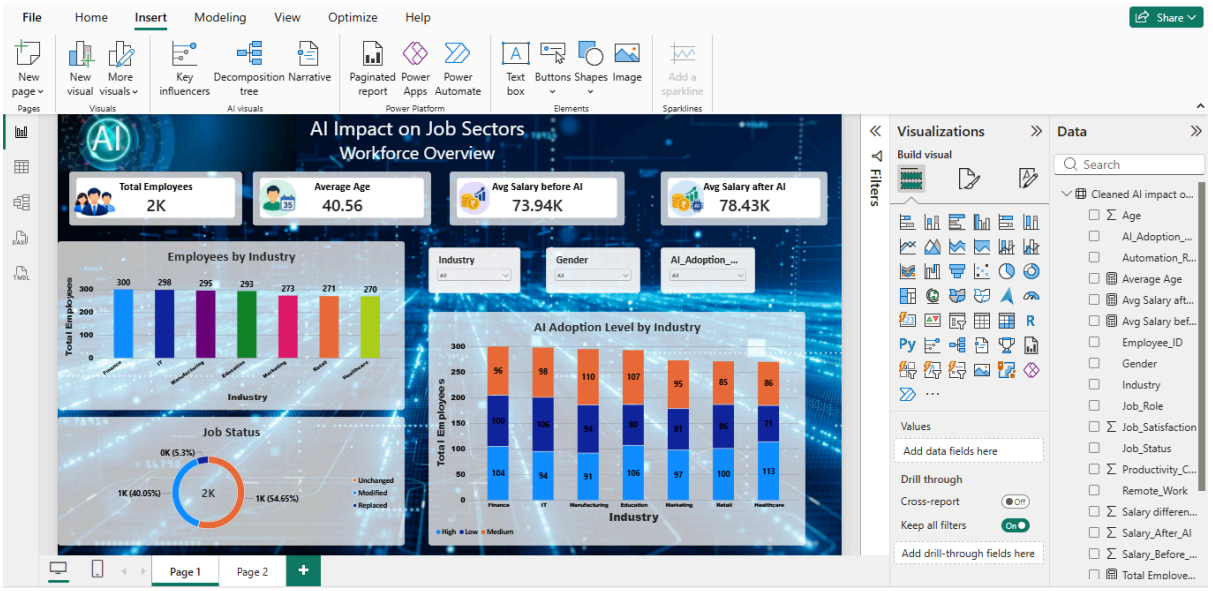

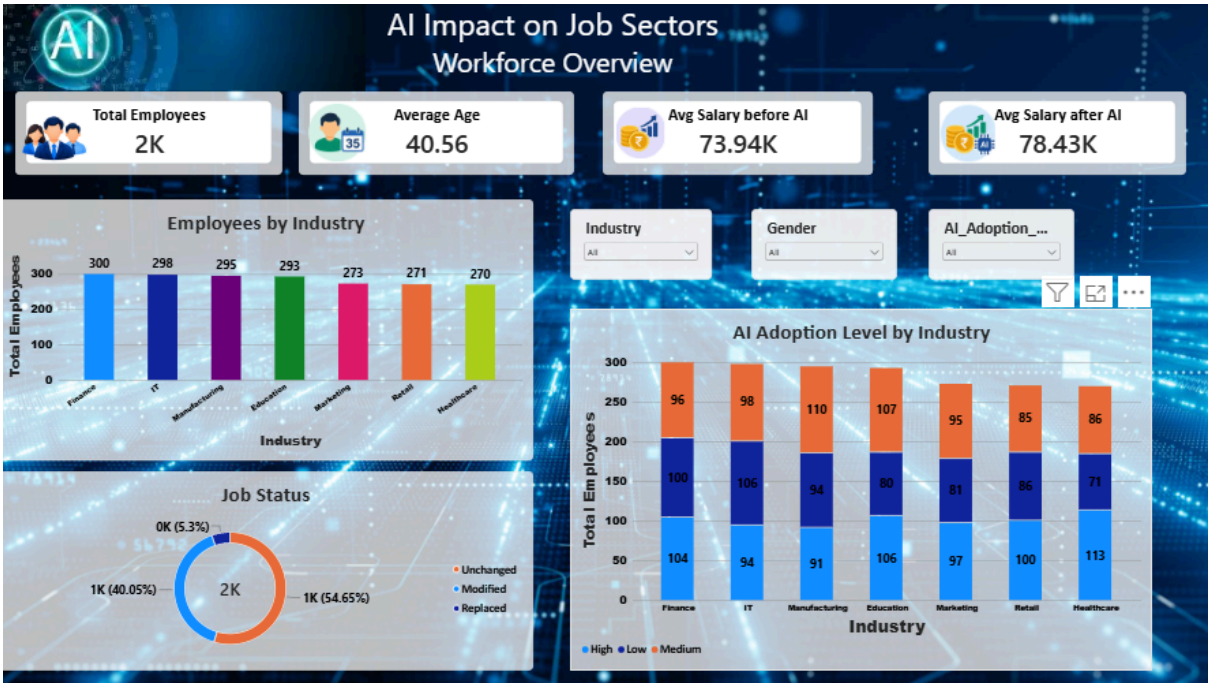

Created a stacked Column chart to display the AI Adoption level of employees in each industry

Please find the 1st dashboard

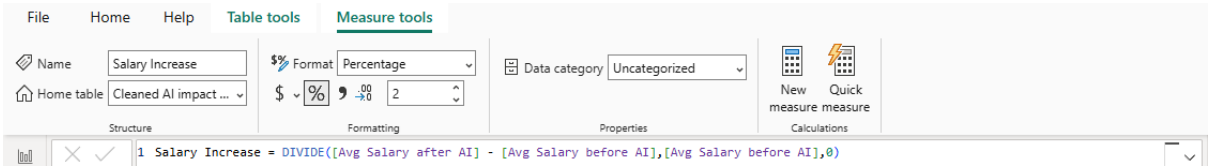

STEP 4:

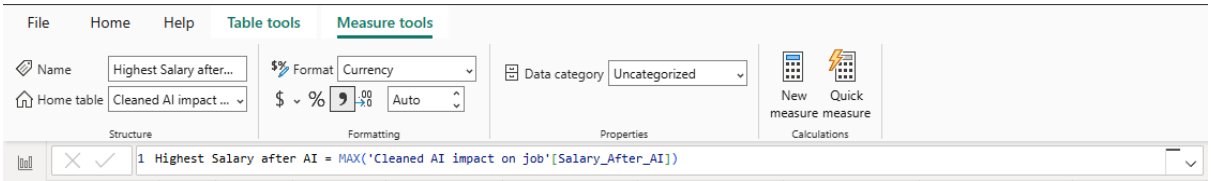

DASHBOARD 2 - AI Impact On Salary

Created a new measures

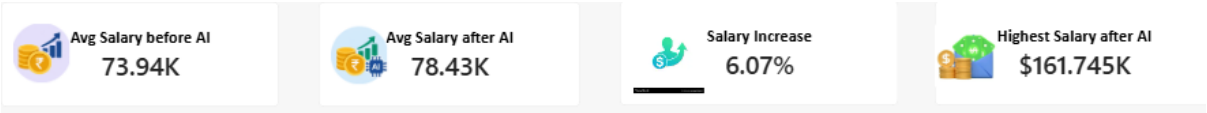

Salary Increase:

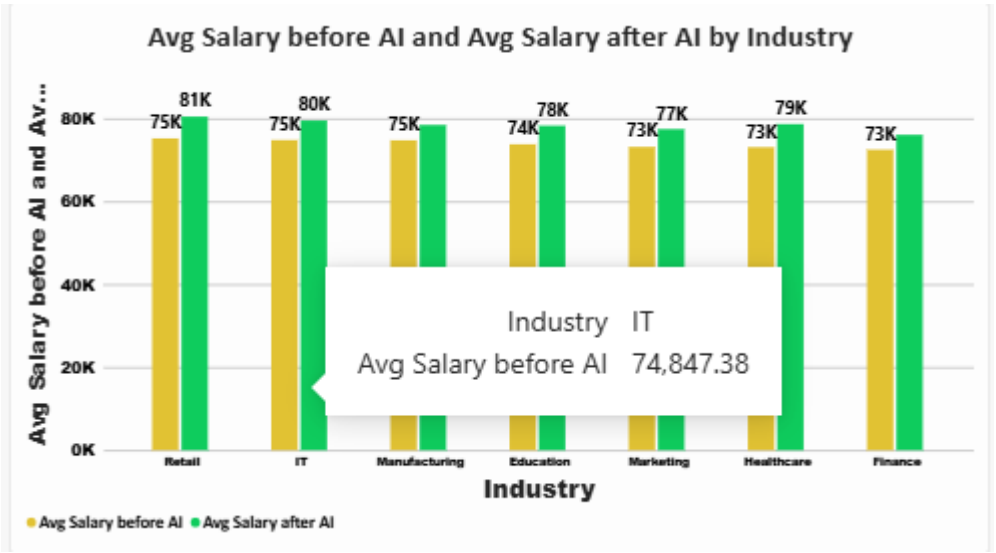

Highest Salary after AI:

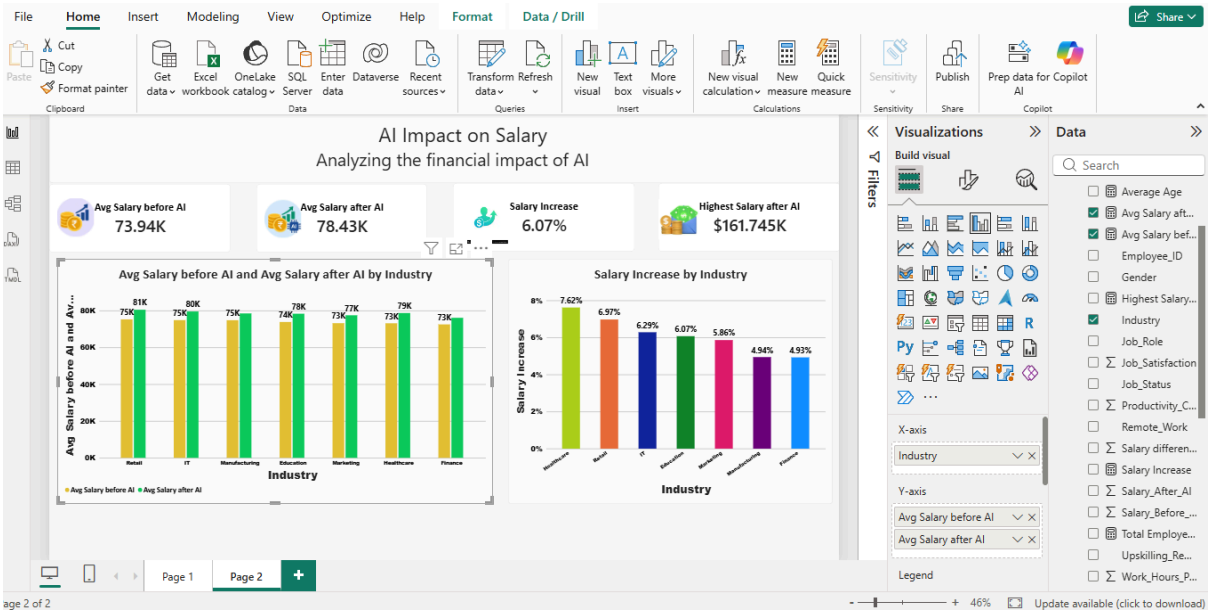

Displayed all the measures in the cards as below

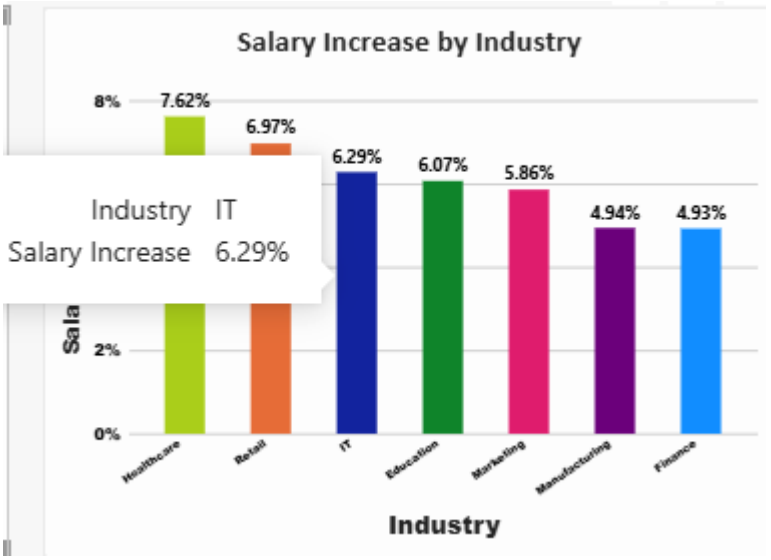

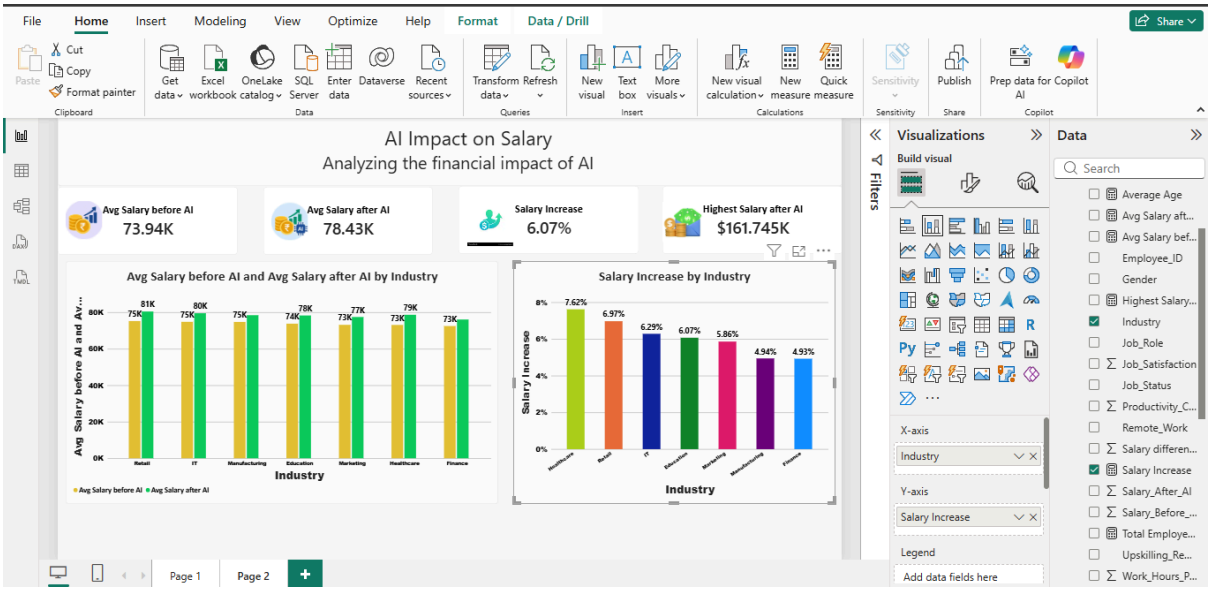

Inserted a Clustered column chart to show difference between salaries before and after AI

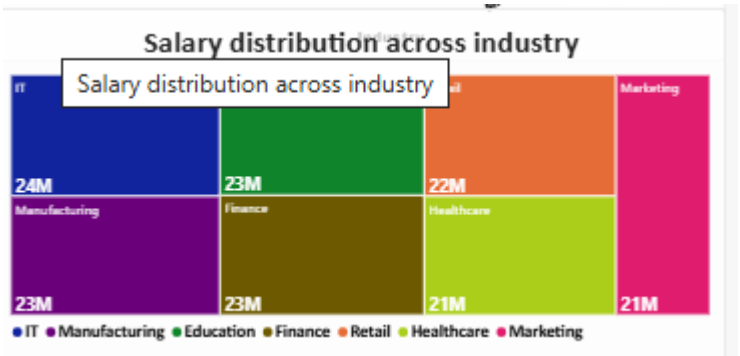

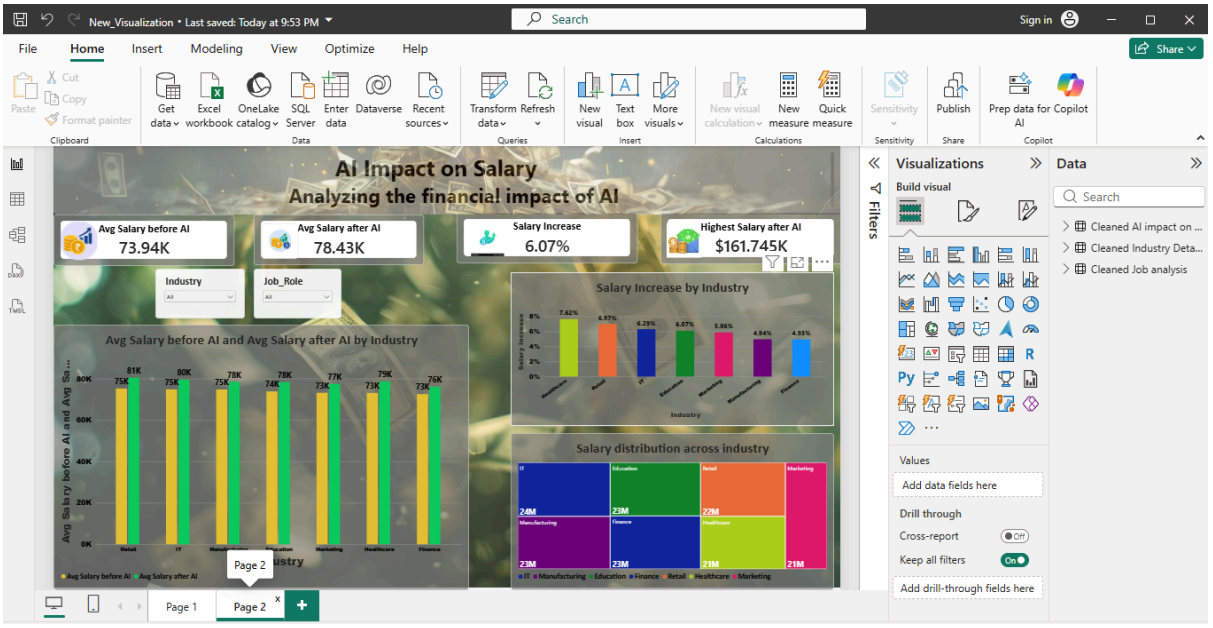

Created a Column chart to show the salary increase % of employees based on industry after AI

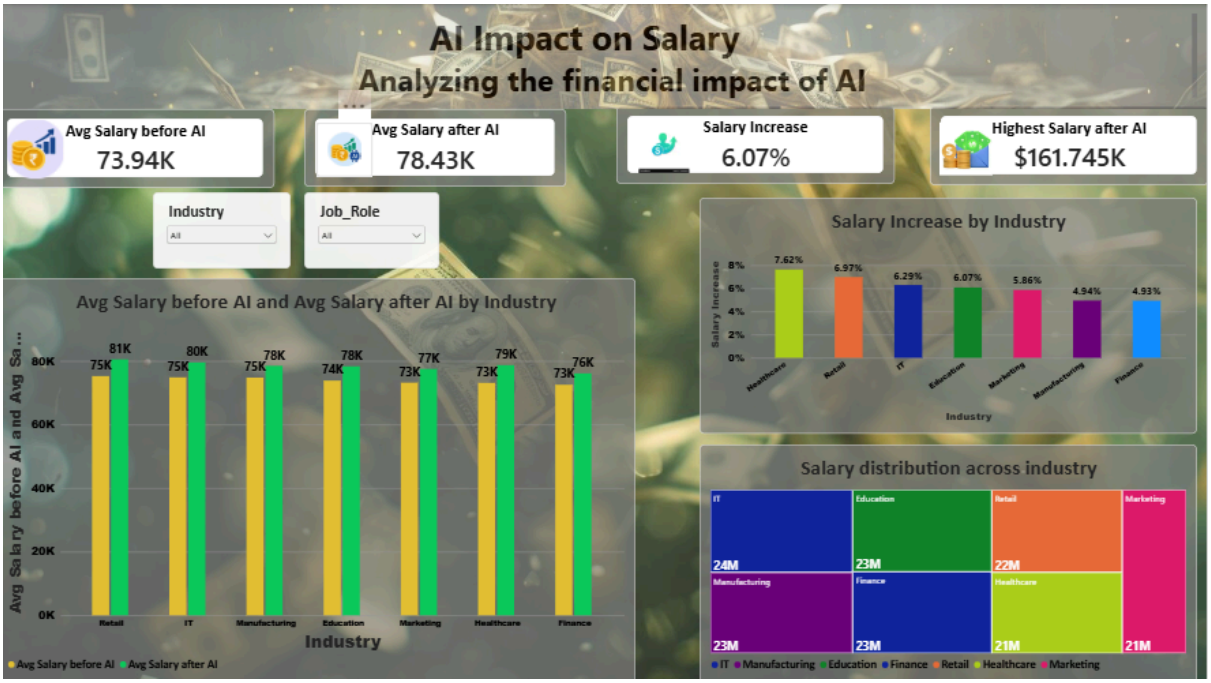

Calculated the salary distribution across various industries

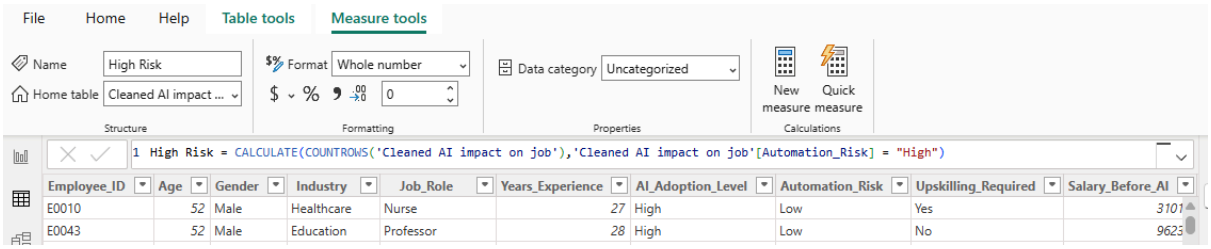

STEP 5: DASHBOARD 3

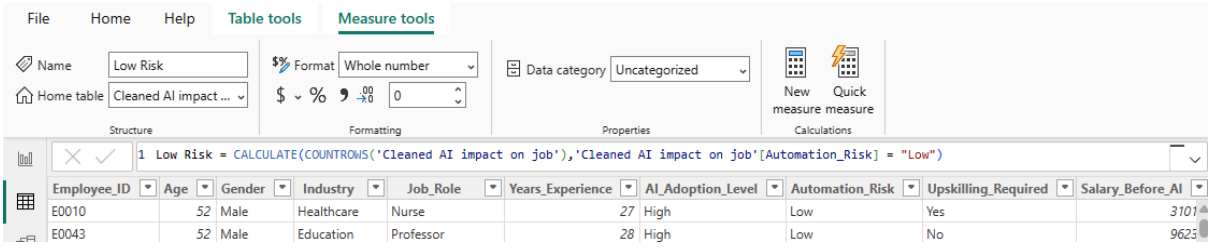

Automation Risk and Upskilling Analysis:

Created the new measures as shown below

High Risk:

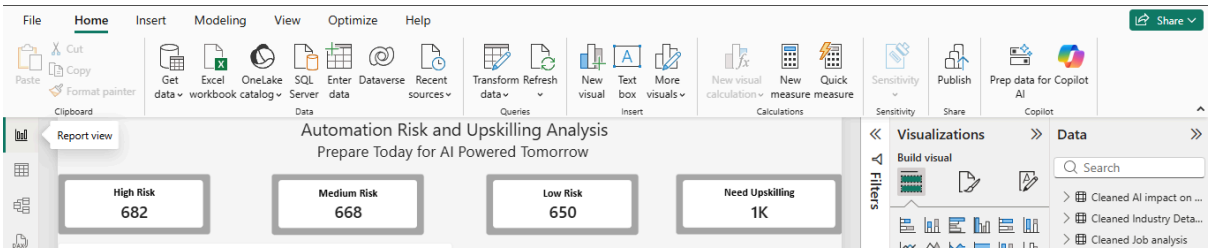

Low Risk and Medium Risk:

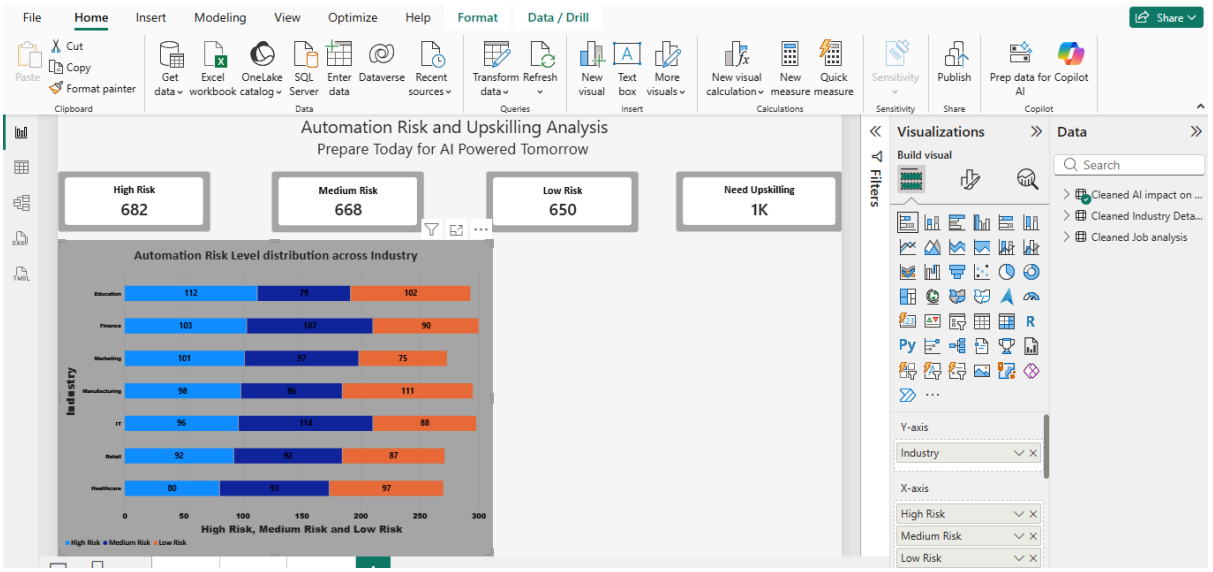

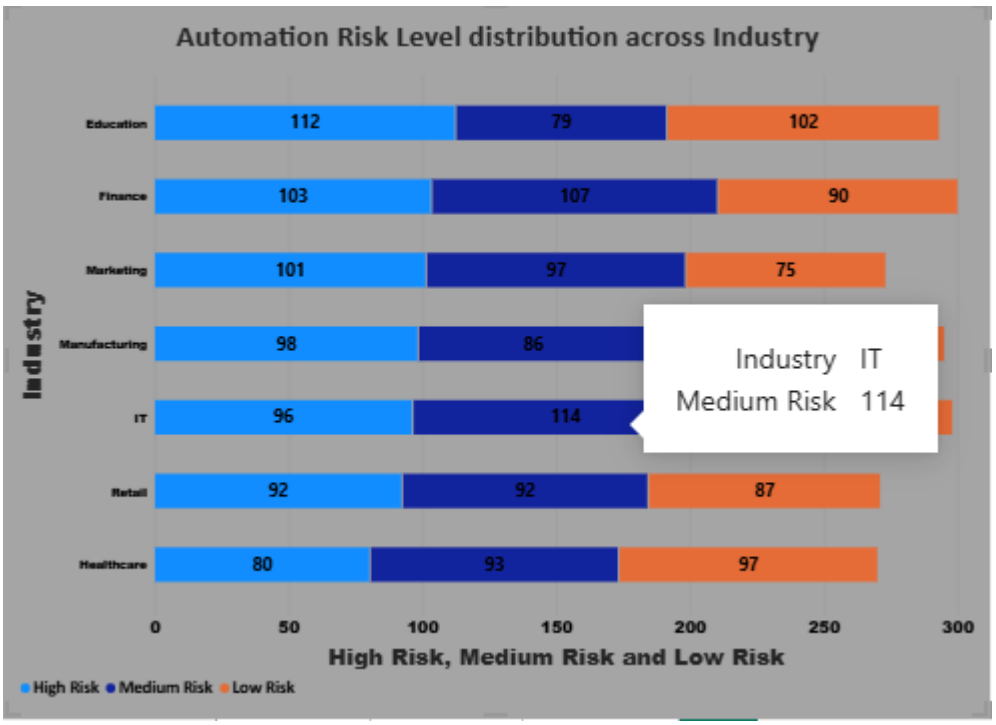

Need Upskilling:

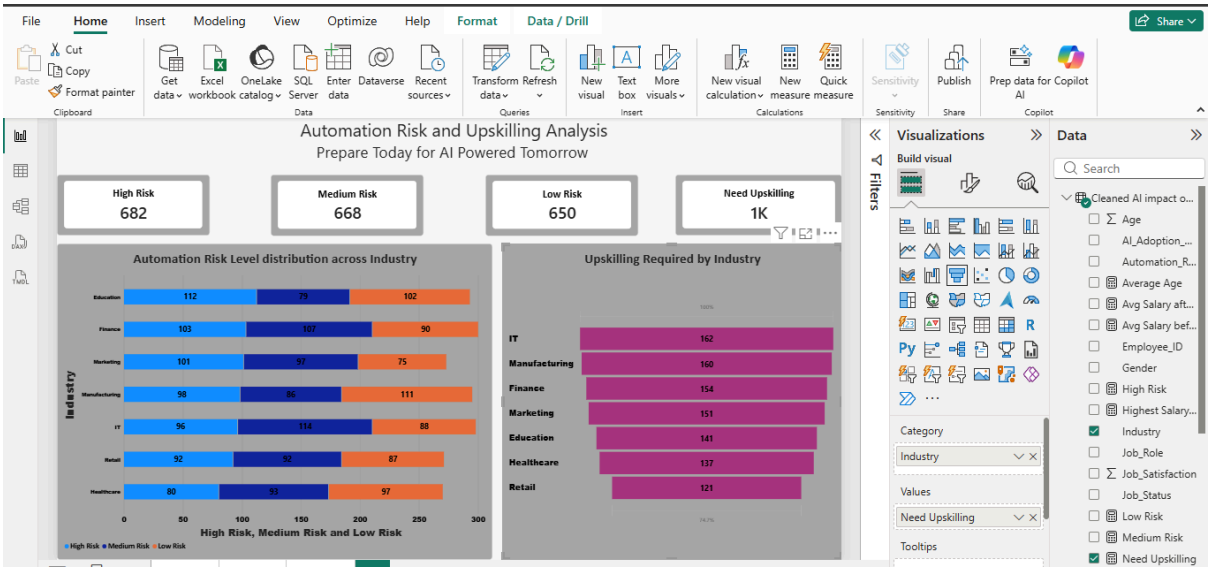

Created a stacked bar chart to show the automation risk level distribution across various industries

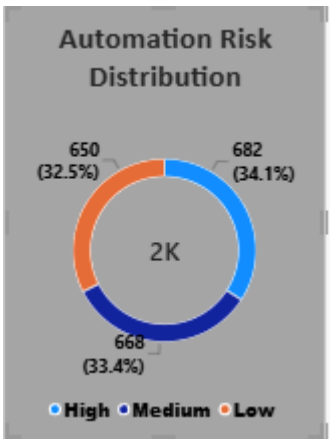

Created a funnel chart to see the number of employees required upskilling across various industries

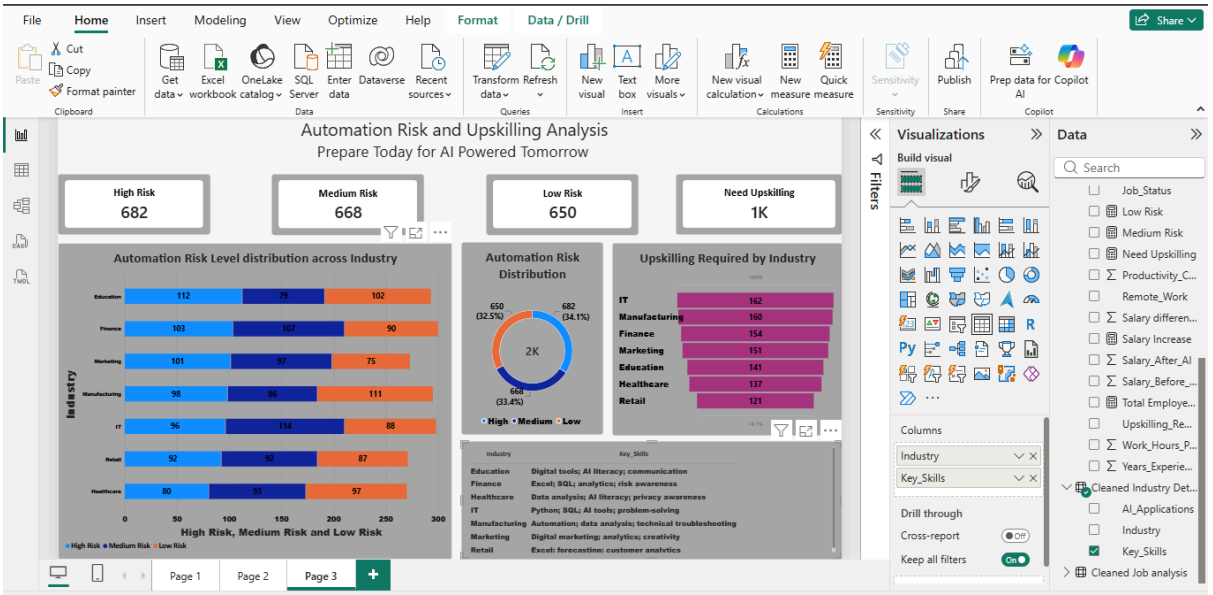

Used Donut chart to display the automation risk distribution across employees

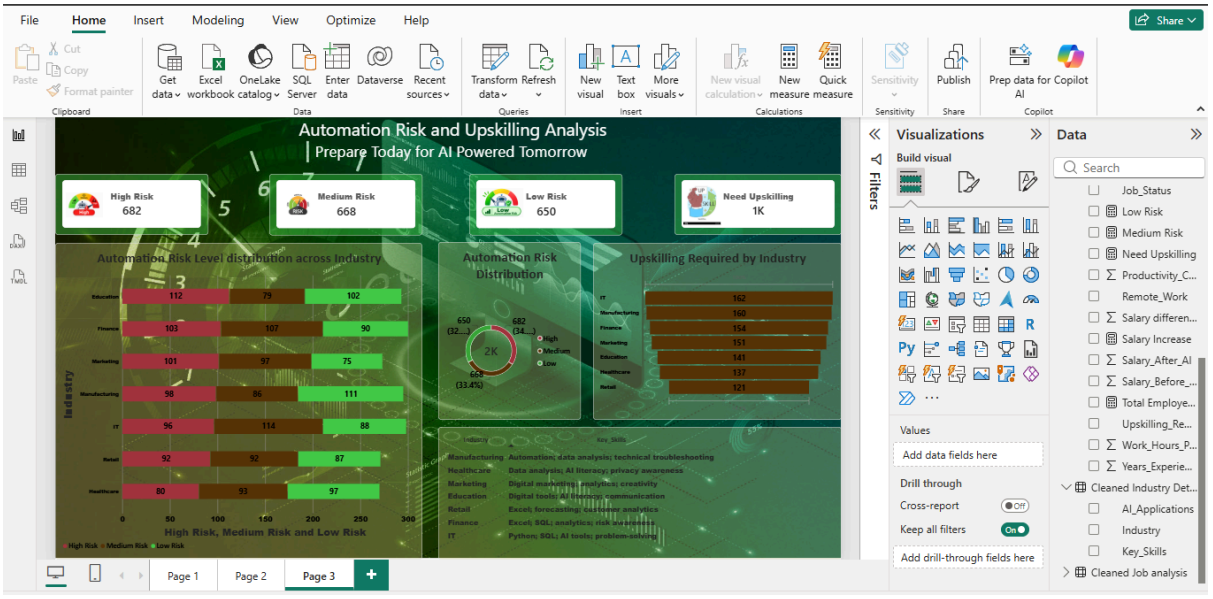

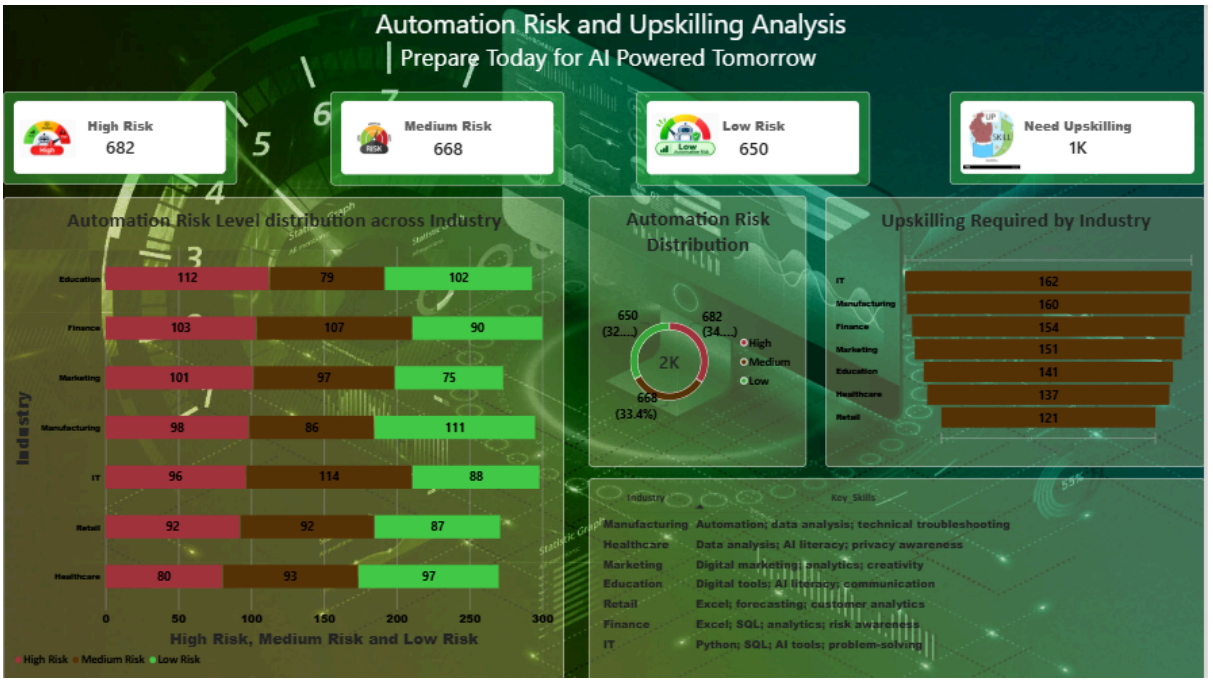

Displayed the Key skills of each industry in a table

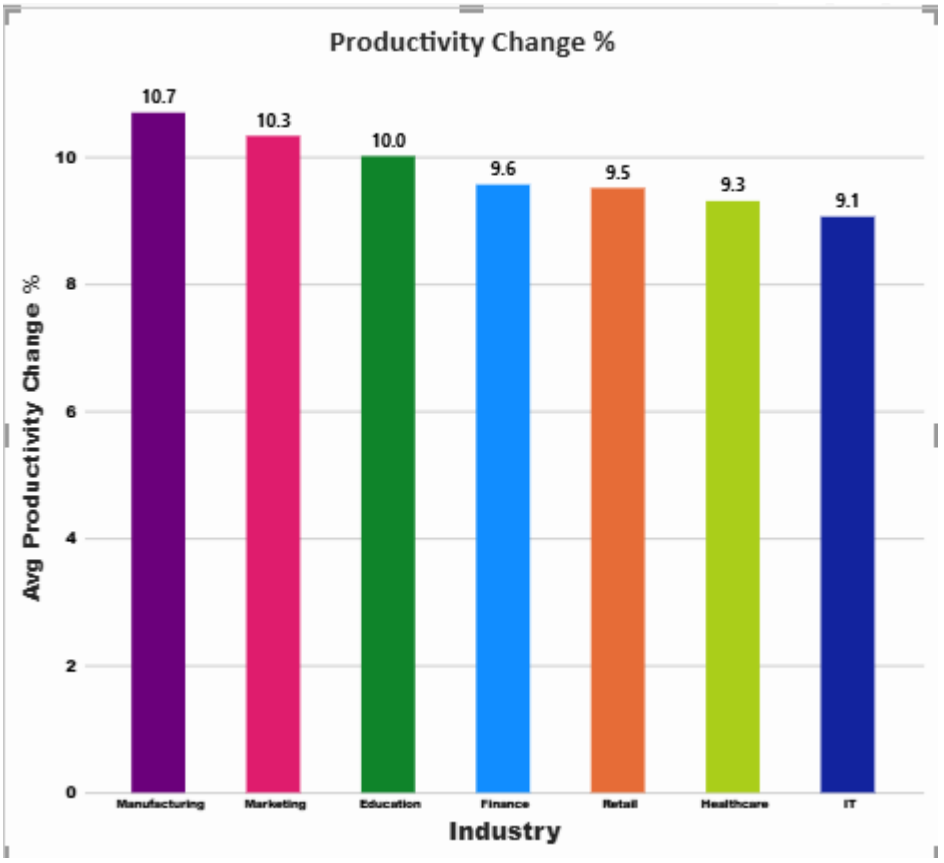

Industry	Key_Skills
Education	Digital tools; AI literacy; communication
Finance	Excel; SQL; analytics; risk awareness
Healthcare	Data analysis; AI literacy; privacy awareness
IT	Python; SQL; AI tools; problem-solving
Manufacturing	Automation; data analysis; technical troubleshooting
Marketing	Digital marketing; analytics; creativity
Retail	Excel; forecasting; customer analytics

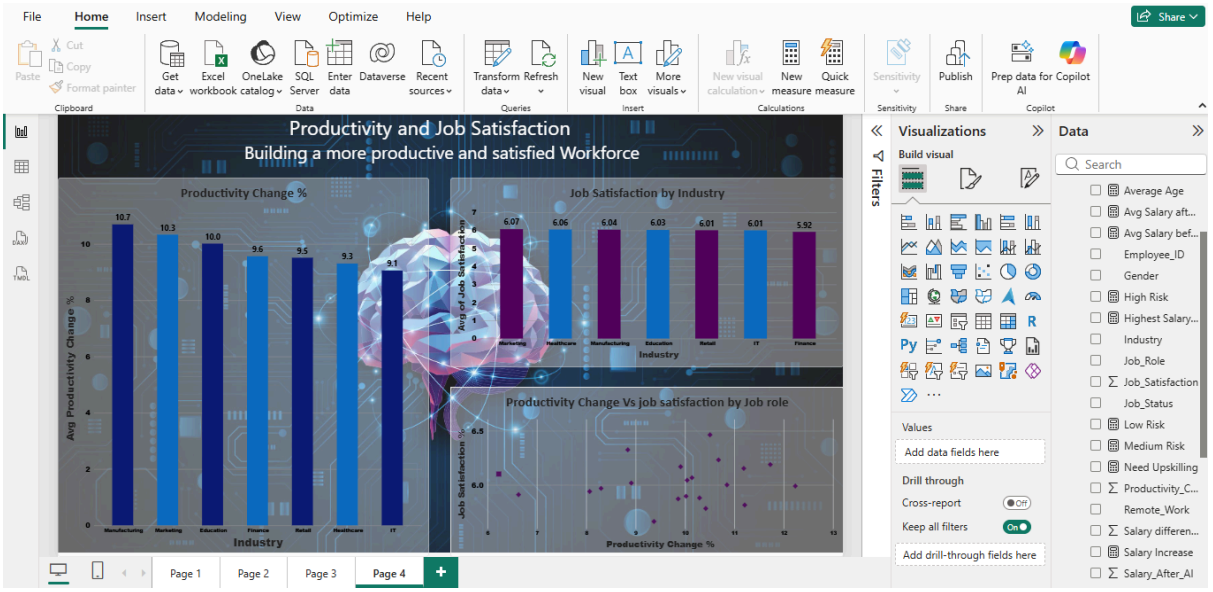

DASHBOARD 4 - Productivity and Job Satisfaction

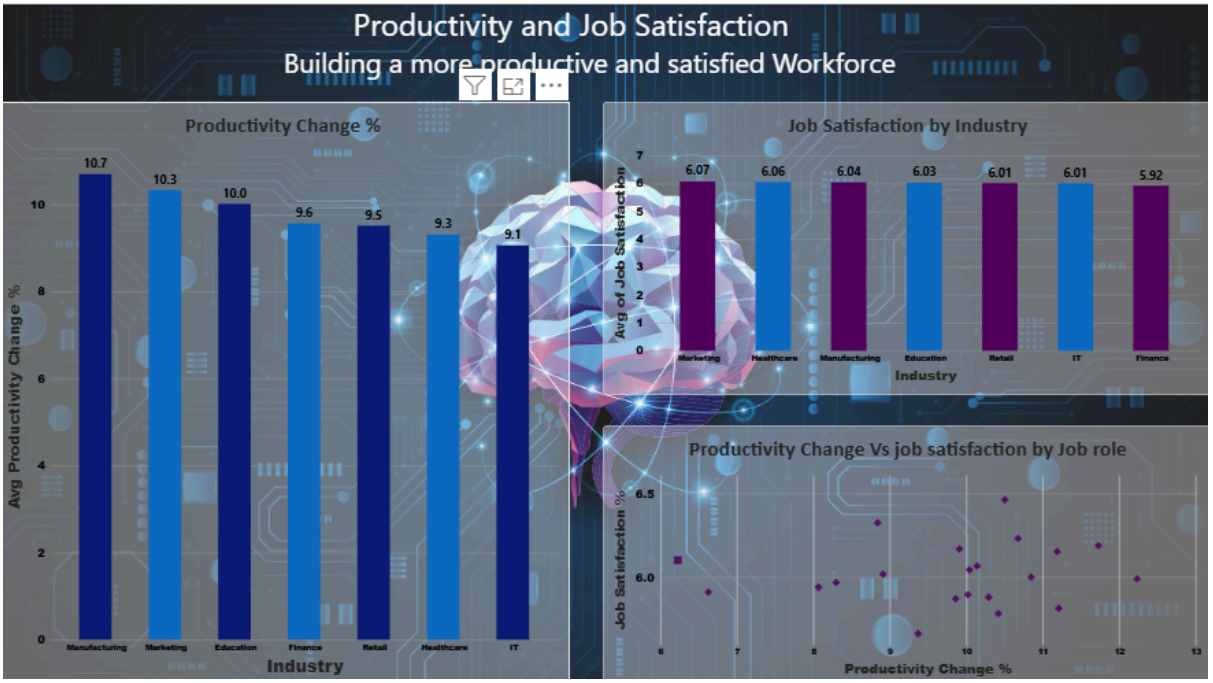

Created a column chart to display the productivity change % by industry

Used scatter chart to display Productivity change and job satisfaction across Job roles
